LENGTH OF POINT RAILS

The following standard point-rails, are available:

ANGLE	5 1/4	6	6 1/4	6 1/2	6 3/4	7	7 1/4	7 1/2	7 3/4	8
LENGTH	12'-5"	12'-4 1/2"	12'-3 3/4"	12'-3 1/2"	12'-2 3/4"	12'-2 1/2"	12'-1 3/4"	12'-1 1/2"	12'-0 3/4"	12'-0"

A standard point rail is used when a closure rail of 12' 0" or more in length can be inserted between it and a standard wing rail of a connected common crossing.

A combined wing & point rail is used when the length of a point rail to butt-up to a standard wing rail of a connected common crossing would be less than 12' 0" (nose).

Where neither of the above notes apply the point rail is made to the length required to butt-up directly to a standard wing rail of a connected common crossing.
